Section 1: COMPANY AND PRODUCT INFORMATION

1.1 Product Name: Follistatin ELISA

1.2 Product Code: AL-117/AL-117-i

1.3 Product Category: GMDN NA / EDMA NA

1.4 Manufacturer: Ansh Labs

- 445 Medical Center Blvd
- Webster, TX 77598
- Ph: (281) 404-0260
- techsupport@anshlabs.com

- RD-RatioDiagnostics GmbH
- Westerbachstrabe 47
- 60489 Frankfurt/Main
- Germany
- Ph: +49 7807-4942

1.5 Emergency telephone number: In the event of a medical emergency, please dial 911.

1.6 Relevant identified uses of the substance/mixture: Research Use Only. For in vitro professional laboratory use.

uses advised against: For quantification of follistatin in human serum and other biological fluids.

1.7 Kit content (name and label reference):

## Section 2: HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture:

None of the material of this product may be classified as dangerous according to REACH regulations and EC Directives 1272/2008/EC due to the low concentration of hazardous ingredients.

### 2.2 Label elements

**Pro-clean 400:**

- H317 May cause an allergic skin reaction
- P261 Avoid breathing vapors
- P272 Contaminated work clothing should not be allowed out of the workplace
- P280 Wear protective gloves, protective clothing and eye/face protection
- P302+P352 If on skin: Wash with plenty of soap and water
- P333+P313 If skin irritation or rash occurs, seek medical assistance

**Sulfuric acid:**

- H314 Causes severe skin burns and eye damage. P280 Wear protective gloves, protective clothing and eye/face protection.
- P301+P330+P331 If swallowed: rinse mouth.
- P303+P361+P353 If on skin (or hair): Rinse skin with water.
- P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Continue rinsing.
- P310 Immediately seek physician assistance.

### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS:

Not applicable.

Note: this product is intended for laboratory use by professional uses only. Use appropriate personal protective equipment while working with the reagents provided.

The Calibrators and Controls are formulated with a buffer base, Protein Based Buffer and Human serum (<1%). The human serums are tested by a CE/FDA licensed method and found to be non-reactive for HIV-1, HIV-2, Hepatitis B surface antigen and HCV. Because no test method can offer absolute assurance that these agents are absent, reagents should be handled at the Biosafety Level 2, as recommended for any potentially infectious human blood product.
Bovine products (BSA) have been derived from US origin and processed in USDA licensed facilities, and are free from known infections, however, it should be considered that no available test method can offer complete assurance of eliminating potential biohazardous risk. The antibodies are from monoclonal origin and are free from human or animal source.

Section 4: FIRST AID MEASURES

### 4.1 Description of first aid measures

<table>
<thead>
<tr>
<th>General advice</th>
<th>No special measures required. Consult a physician in case of complaints.</th>
</tr>
</thead>
<tbody>
<tr>
<td>If inhaled:</td>
<td>If product is inhaled, move exposed individual to fresh air.</td>
</tr>
</tbody>
</table>
In case of skin contact: In case of skin contact, flush with water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

In case of eye contact: If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

If swallowed: If ingested, wash mouth out with water. Seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed:
To the best of our knowledge, the chemical, physical a toxicological properties have not been thoroughly investigated.

4.3 Indication of any immediate medical attention and special treatment needed
No data available.

Section 5: FIREFIGHTING MEASURES

5.1 Flammable Properties:
Nonflammable solution.

5.2 Extinguishing media:
Chemical or water fire extinguisher.

5.3 Special hazards arising from the substance or mixture:
No special hazards determined.

5.4 Advise for Firefighters
Wear self-contained breathing apparatus for firefighting, if necessary.

5.5 NFPA Rating
Health: 2
Flammability: 0
Reactivity: 1

Section 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:
Use appropriate personal protective equipment (Wear rubber gloves, safety goggles, impermeable shoe covers and long laboratory coat).
6.2 Spill and Leak Procedures:
Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.3 Environmental precautions:
Contain the spill to the smallest area possible. Do not let product enter drains. Discharge into the environment must be avoided.

6.4 Methods and material for containment and cleaning up:
Absorb with inert absorbent material and dispose of a waste (see section 13).

6.5 Reference to other sections:
For disposal see section 13.

Section 7: HANDLING AND STORAGE

7.1 Precautions for safe handling:
Wear suitable personal protective equipment. Take care not to splash spill or splatter reagents. Do not eat, drink, smoke or apply cosmetics in laboratory areas. Do not pipette samples or reagents by mouth.

7.2 Recommended Storage and Conditions:
Keep away from incompatible material (see Section 10).
To maintain efficacy, store according to the instructions in the product labelling.

7.3 Specific end use(s):
This product is intended for laboratory use by professional users only.

Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters:
Component with exposure limits: it doesn't contain substances with exposure limit value.

8.2 Exposure controls
Handle in accordance with good industrial hygiene and safety practice.
Wash hands before breaks at the end of workday.

8.3 Personal protective equipment:
US OSHA: None established.
ACGIH: None established.
### Section 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties:

<table>
<thead>
<tr>
<th>Component</th>
<th>a) Appearance</th>
<th>b) Odor</th>
<th>c) pH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Follistatin Calibrator A</td>

</tr>
</tbody>
</table>

For all components

- d) odor threshold: no data available
- e) melting point / freezing point: no data available
- f) initial boiling point and boiling range: no data available
- g) flash point: no data available
- h) evaporation rate: no data available
- i) flammability (solid, gas): no data available
- j) upper/lower flammability or explosive limits: no data available
- k) vapor pressure: no data available
- l) vapor density: no data available
- m) relative density: no data available
- n) solubility(ies): no data available
- o) partition coefficient: n-octanol / water; no data available
- p) auto-ignition temperature: no data available
- q) decomposition temperature: no data available
- r) viscosity: no data available
9.2 Other information:
No other information available

Section 10: STABILITY AND REACTIVITY

10.1 Reactivity:
No data available.

10.2 Chemical stability:
No data available.

10.3 Possibility of hazardous reactions:
Concentrated Sodium Azide may react with copper and lead plumbing to form explosive metal azides. May react with acids to form explosive hydrazoic acid. If drain disposed, flush with large amounts of water to prevent azide build-up.

10.4 Conditions to avoid:
For the functional stability and reactivity of “TMB Substrate” avoid its exposure to direct sunlight, metals or oxidants and do not freeze the solution.

10.5 Incompatible materials:
Strong acids; strong bases; strong oxidizers.

10.6 Hazardous decomposition products:
No decomposition products posing significant hazards would be expected from this product.

Section 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects:

<table>
<thead>
<tr>
<th>Effect Type</th>
<th>Toxicity</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) acute toxicity</td>
<td>no data available</td>

11.2 Signs and Symptoms of Exposure:
To the best of our knowledge, the chemical, physical and toxicological properties have not been thoroughly investigated.

11.3 Additional Information:
Not applicable.

---

Section 12: ECOLOGICAL INFORMATION

12.1 Toxicity:
No data available.

12.2 Persistence and degradability:
No data available.

12.3 Bio accumulative potential:
No data available.

12.4 Mobility in soil:
No data available.

12.5 Results of PBT and vPvB assessment:
No data available.

12.6 Other adverse effects:
No data available.

---

Section 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods:
Reagents must be disposed of in accordance with local regulations. Do not dispose of in wastewater. If appropriate, contact a licensed disposal company.

---

Section 14: TRANSPORT INFORMATION

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG, because it is in a very small quantity, the product benefits from a total exemption from the ADR regulation.

14.1 UN Number:
No data available.

14.2 UN proper shipping name: No data available.

14.3 Transport hazard class(es): No data available.

14.4 Packing group: No data available.

14.5 Environmental hazards: No data available.

14.6 Special precautions for user: No data available.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: No data available.

Section 15: REGULATORY INFORMATION

This product is not regulated under US Federal and State Regulations, EU labeling Classification, Canada, and WHMIS Classification, with the exception of Sulfuric Acid that is present in low concentration in Stopping Solution (see below). Mixtures are in conformity with 98/79/EC IVD Directive and REACH regulations.

**US Federal and State Regulations**

<table>
<thead>
<tr>
<th>Regulation</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>SARA 313</td>
<td>Sulfuric Acid is subject to reporting requirements of Section 313, Title III of SARA.</td>
